

PRUDHVINATH REDDY BALUSANI

Atmakur, Andhra Pradesh, India | +91 6300485893 | prudhinath1516@gmail.com

PROFESSIONAL SUMMARY

Aspiring **Software Test Automation Engineer** with a strong foundation in **Java, SQL, Object-Oriented Programming, Software Testing, Debugging, Validation, and Data Analytics**. Hands-on experience through a **Logistics Data Analyst Internship** and prior Java development internship. Practical exposure to application validation, defect identification, data preprocessing, exploratory analysis, and Python-based analytics. Strong attention to detail, analytical thinking, and problem-solving skills with an interest in software quality and test automation.

TECHNICAL SKILLS

Programming Languages: Java, SQL, Python(Basics)

Software Testing: Functional Testing, Test Verification, Application Validation, Debugging, Quality Checks

Testing Concepts: Test Case Execution, Defect Identification, Regression Testing Concepts, SDLC, STLC

Data & Tools: MS Excel, GitHub

Core Concepts: OOP, Problem Solving, Analytical Thinking, Documentation

Engineering Tools: AutoCAD, CATIA

INTERNSHIP EXPERIENCE

Logistics Data Analyst Intern – YuvaIntern

Aug 2026 – Present

YuvaIntern

- Performed data collection, cleaning, preprocessing, exploratory analysis, and visualization for logistics datasets using Python.
- Analyzed logistics KPIs including on-time delivery, transportation cost, delivery time, inventory performance, and operational efficiency.
- Applied regression, clustering, predictive modeling, and optimization concepts to business-oriented logistics problems.
- Created structured technical reports and maintained project files in GitHub repositories.
- Performed data validation and quality checks to improve reliability of analytical outputs.

Java Developer Intern – Six Phrase

Mar 2026

Java Development

- Reviewed application outputs and verified functionality through software testing activities.
- Identified application issues and supported debugging and issue-resolution activities.
- Worked with Java applications and Object-Oriented Programming concepts.
- Performed validation and verification activities to support application quality.

EDUCATION

G Pulla Reddy Engineering College, Kurnool

2022 – 2026

Bachelor of Technology (Mechanical Engineering)

Smt. Theresa Junior College

2020 – 2022

Intermediate (MPC)

Gowtham High School

2019 – 2020

SSC

PROJECTS

ATM Management System – Java

- Developed a Java-based banking application using Object-Oriented Programming concepts.
- Implemented account management, deposit, withdrawal, and balance enquiry modules.
- Applied exception handling, debugging, and functional verification to improve application reliability.
- Performed testing of transaction-related functionality and validated expected application behavior.

Logistics Data Analysis – Python

- Developed a Python-based workflow for data cleaning, preprocessing, EDA, visualization, predictive modeling, and optimization.
- Calculated logistics KPIs and analyzed delivery performance, transportation cost, inventory behavior, and operational trends.
- Documented analysis results and maintained project artifacts in GitHub.

CERTIFICATIONS

Programming in Java – NPTEL

GenAI Powered Data Analytics Job Simulation – Tata iQ (Forage)

Data Analytics Job Simulation – Deloitte

Product Design – SkillDzire

CATIA Certification – CAD/CIM Technologies
